

August 2008

Dear Second Grade Families:

Welcome to second grade! I am hoping that at the end of this school year, you will say, "Wow! My child has gained so much academically and spiritually from this year at MQP, and Mrs. Stiller has become a friend of mine." It is my goal to offer to you and your child as much energy possible to make learning fun and profitable.

It is important to know that I am highly task-oriented; I like to offer my students the maximum amount of learning possible in one school year. So, yes, we will work at a consistent pace through our curriculum and your child will fall right into the rhythm. I promise that you'll be amazed at how much knowledge your child gains this school year.

It is my hopes that as I share more of myself with you, you will know me personally and will trust me with your treasure—your child. Know that I am available to you should you need me. Know that educating your child well is a top priority for me, but living out the beliefs I profess so that your child can learn more of Christ is an even higher goal for me.

Wishing nothing but good for us and for your family this school year,

*Mrs. Stiller*
